“No Brainer Advertising for Automotive Dealers”

FINALLY, advertising that stays with your customer and will not be thrown away.

FINALLY, advertising that actually saves you money.

FINALLY, advertising that will last the lifetime of the vehicle.

Dealers now have a strong way to advertise in the changing market and at the same time, stretch their dollar further. This new key, the ID Key, will give you a unique and fresh way to promote your dealership, reduce inventory, and save money.

You're buying the keys anyways, why not have your name on it.

ID Key has over 25 years of experience with automotive locks, keys, key machines, and key storage systems. We serve the automotive industry exclusively, supplying the ID Key, classic key blanks, transponder key blanks, integrated remote keys, automotive locks, key machines and key storage systems.

ID Key – More Than Just A Key

ID Key is a unique and cost-effective way to promote your company. A single ID Key can be used in place of your manufacturer keys, making a versatile addition to your inventory.

Key chains and other promotional materials are often discarded, but everyone keeps a working key. The embedded logo is designed to last the lifetime of the key

so the advertising benefit lasts as long as the life of the vehicle. ID Keys are manufactured by OEM manufacturers and guaranteed to work.

Getting started with ID Key is simple and easy with no extra setup fees. You get your custom logo imprinted the way you want. Unlike many other promotional items, ID Keys are not limited by colors, giving more freedom to your logo design.

2010 High Security Keys

CHEVY CAMARO, CHEVY EQUINOX, GMC TERRAIN & BUICK LACROSSE

Key Cutting Service

Get Any Automotive Key Cut to Code

ID Key can cut any automotive key to code and have it shipped out to you within 24 hours. Call, fax or email us with the key blank or vehicle information and the key code required. We'll have our skilled technicians cut a key to your code and ship it out within 24 hours. We have access to most manufacturers' key blanks and the hardware required to cut them. This includes the new Side Mill and TIBBE keys as well as foreign high security keys.

We can also cut your stocked keys to code. Simply ship your key blank to us with the key code and we'll have it cut and shipped back to you within 24 hours.

Key Duplicating Machines

Bravo III Heavy Duty Semi-Auto Traditional Key Duplicator

- Wide spacing between vise jaws accommodates longer keys, and those with large heads.
- Carriage is spring loaded, provides consistent cutting pressure, and reduces potential for miscuts
- Automatic cutter start feature; activated by raising and lowering carriage
- Depth adjustment is accomplished using a refined dial type configuration; easy to calibrate and accurate, repeatable results
- Two carriage shafts ensure sensitivity and precision in the cutting operation
- “Soft-touch” nylon deburring brush

SPEED 044 Semi-Auto Traditional Key Duplicator

- The spring loaded carriage applies a consistent cutting pressure while in automatic mode
- Four sided, nickel plated jaws for clamping the majority of all edge cut/flat type keys.
- Wide spacing between clamps accommodate large bow (head) and long blade keys, including flip style keys
- Nylon deburring brush
- Two year warranty

Key Code Cutting Machines

Futura Traditional & Side Mill Key Code Cutting Machine

Traditional Keys

- Copy by original with optical reader to ensure an exact duplication of the original
- Decode and copy by optical reader to OEM specifications
- Four position jaw (clamp) accommodates a wide variety of keys without additional accessories or adapters

Side Mill & Laser Cut Keys

- Decode and copy by electrical contact to OEM specifications
- One clamp, three quick change interchangeable jaws included
- Interactive 3rd axis eliminates the need for manual depth of cut adjustment
- Expand capabilities to include Tibbe, tubular and other keys with optional accessories

Touch Screen, Wi-Fi Innovation

- Removable 10" (254 mm) touch-screen tablet provides step-by-step instructions and menu prompts to simplify key selection, position and the key cutting process
- Wi-Fi enabled communication between tablet and machine
- Silca® database provided is the most extensive database available
- 10 different search criteria
- Multi-language support

Work Efficiency

- Automatic calibration
- Software database updates via direct Wi-Fi connectivity or download to PC
- LED lighting indicates current status of machine
- Safety shield retracts into the hood

Key Code Cutting Machines

Tri-Code Side Mill Key Duplicator & Code Cutting Machine

- Microprocessor controlled cutting operation, utilizing a precision x-y stepper motor carriage transport mechanism
- Extensive “on-board” database contains cut specifications for dozens of sidewinder/laser style automotive key systems and also includes indirect codes for most major automotive brands using sidewinder/laser style keys
- Versatile Three-Position vise clamp (optional vises are not required)
- Only one cutter required to support all applications
- Simple to follow menus with easy view LCD display and generous size keypad for easy operation
- Built-in light illuminates cutting area
- Protective safety shield

Pak-A-Punch Traditional Key Punch Machine

- The Valu-Set is A-1's best value.
- Purchased as separate components, this package would cost hundred's of dollars more.

ZEXX™

AUTO COLOGNE WAX

A simple to use carnauba spray wax and quick detailer, that not only leaves your vehicle with an incredible deep shine, but and a potent designer cologne or perfume scent that emanates up to 10 meters.

Three potent men's scents and a very impressionable women's scent. Highly refined white carnauba wax that delivers a deep, streak free shine.

Apply quick and easy with the Zexx atomizer spray trigger, then buff to a brilliant shine with a microfiber cloth. Place that microfiber cloth under your car seat or in your glove box and your car's interior will have that same designer scent for months.

Available in cases of 12 cans with 3 of each fragrance. Each case includes an easy to assemble counter top display.

Each case comes with an easy to assemble counter top display.

Remote Skins

Our New Flexible Remote Skins® Slip On to Protect a Car Remote!!

Customize - Made of soft, flexible neoprene to resist water damage and fraying.

Protect – Tough, clear vinyl window allows visibility of remote buttons and protects them from wear.

Repair – Slip the cover over a broken remote to make it usable again.

Available in three models: GM, Ford & Universal (fits most Toyota and Honda remotes).

Replacement Batteries

692497

Panasonic Button Cell CR2032

10 Individually wrapped batteries

Replacement Button Cell CR2032

Silicone Remote Jackets

For Chrysler & Ford Remotes & Remote Heads

A simple solution to protect, distinguish, and prevent broken & scratched up car & truck remotes.

Ford 80-Bit IKTs

Chrysler/Dodge FOBs

Ford IKTs

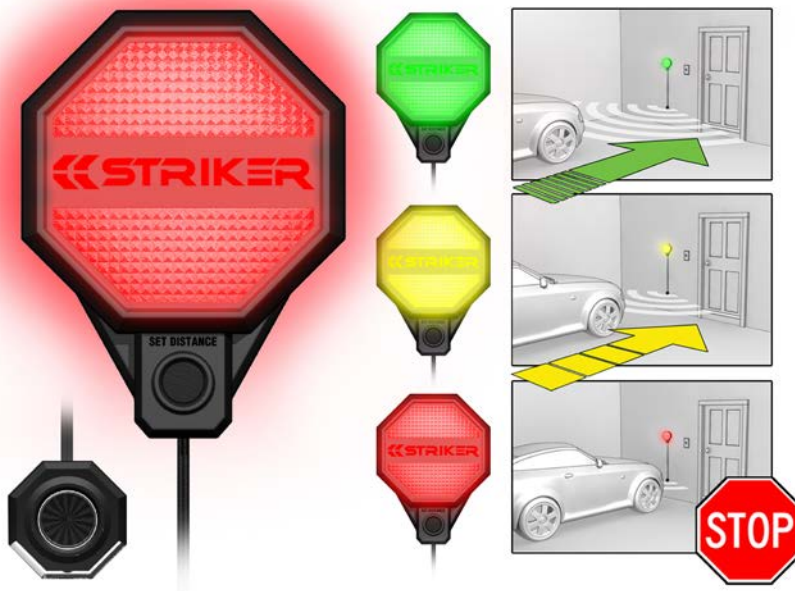

A custom fit protective cover made out of a silicone based rubber that simply slides over your existing remote. Added features of this product include: damage prevention, replacement costs, accidental engagement of control functions, ability to reattach a broken remote, and personalization through a variety of colors.

Ultra-Sonic Parking Sensor

Park Your Car Exactly Where You Want It

The Striker Garage Parking Sensor is designed to take the guess work out of parking your car in tight garage spaces. It features adjustable, ultrasonic range finding technology to accurately locate your car within your desired parking constraints.

As the driver approaches the Striker Garage Parking Sensor they will see a green light indicating it is safe to proceed.

As the car nears the sensor, a yellow light will illuminate as a warning to slow down.

Finally, when the car is in the desired parking distance from the sensor, a red light will illuminate, signaling the driver to stop the car.

It makes parking as easy as 1,2,3!

The Striker Parking Sensor eliminates the dents and dings from garage “fender benders” and allows you to safely close the garage door every time. It is easy to install and comes complete with all mounting hardware, instructions and warranty.

Simply mount the sensor unit in front of the car at bumper level. Then mount the signal light in a position easily viewed from the driver's seat. Lastly, park your car exactly where you want it and press the set button. That's it!
